DIGEST OF SB 324 (Updated February 17, 2016 10:01 am - DI 97)

Citations Affected: IC 16-19; IC 16-41; IC 22-13; IC 22-15; noncode.

Synopsis: Construction permits and regulation. Provides that the following: (1) Provides deadlines for the state department of health (department) to issue construction permits and conduct plan reviews for certain projects. (2) Requires the department to issue a construction permit without further review, if the department fails to provide notice or a complete plan review within the time required by statute. (3) Allows a person to apply for a construction permit from the department and a design release from the division of fire and building safety (division) by submitting a single application to the division. (4) Limits subsequent reviews to revisions and required corrections. Provides that a plan review for a design release for a Class 1 structure may only be performed as a prerequisite for a design release and not a permit. Provides that either the division of fire and building safety or a political subdivision certified to be qualified to perform a plan review for a design release, whichever performs the initial plan review for a design release, may charge a fee for the plan review. Allows the fire protection and building safety commission to adopt emergency rules to promote preservation and use of downtown commercial buildings located within designated historic districts.
